características técnicas y constructivas sujetas a variación sin previo aviso

we reserve the right to change specifications whitout prior notice

- El PVP corresponde al **módulo montado en la vitrina**, no como elemento independiente. Cubetas GN **no incluidas** en el precio
- Constructos en acero inoxidable AISI-304
- Capacidad para cubetas GN1/1 fondo 150 (no incluidas)
- Elementos encastrables compatibles con todos los modelos de la gama CVE-9 y CVE-10, siempre SIN estante (recomendado)
- No compatibles con modelos de la gama CVED
- Baño maría y calor seco :
 - Aplicar incremento por elemento encastrable a la versión neutra de la vitrina compatible
 - CMVE-BM encastrable baño maría, llenado manual
 - CMVE-HE encastrable calor seco +55°C +70°C
- Cubetas refrigeradas CMVE-ES:
 - Aplicar incremento por elemento encastrable a la versión con evaporador ventilado de la vitrina compatible

- Price is for the **set mounted in the counter**, not as a separate element
- GN containers, **not included** in price
- Built in stainless steel AISI-304
- Compatible with GN1/1 150 depth (not included)
- Drop-in elements compatible with all models of the CVE-9 and CVE-10 range, always without shelf (recommended)
- Not compatible with CVED models
- Bain-marie and dry heat:
 - Apply increase of price by drop-in element to the neutral version compatible counter
 - CMVE-BM drop-in bain-marie, manual filling
 - CMVE-HE drop-in dry heat +55°C + 70°C
- Refrigerated trays CMVE-ES:
 - Apply increase of price by drop-in element to the ventilated version compatible counter
